I am interested in going into the medical field to become a nurse. I want to at least get a bachelor's degree in nursing and go to a university in Southern California but I am willing to go anywhere as long as I have scholarships. Even though my work experience is not related to nursing it has taught me to be responsible, be flexible and manage my time better, and learn how to take care of others.

EDUCATION:

Completed one year at Mills High School

Graduation Date: 6/1/2021
